### Add customer:

Take customer details and run Know Your Customer checks via our secure management portal, if required, then give them a card pack containing a prepaid card and PIN number.

### Load funds:

Use the management portal to load cards instantly, 24/7. Or, make payments directly into a bank account with quick processing times and low fees.

### Spend and repeat:

Reload cards again and again or make instant payments anytime. Customers receive text or email notifications when funds are loaded, and can manage their accounts using our cardholder portal.

## Have a customer with a Bread4Scrap card already?

No problem! Just add their details to your account in the management portal, send the funds, and they're good to go.
